Things are moving fast on the "do-over" issue and partisans for the Clinton campaign are getting the upper hand on the issue. Granholm, Cris, Rendell, Corzine all support whatever resolution will favor Hillary. Obama supporters are being put in a position to look like we are resisting the enfranchisement of Michigan and Florida voters.

We urgently need to change the dynamic on this. That change is to promote the idea of inviting the Carter Center to come in and resolve the issue. It is proactive, pro-democratic, and will help assure that the solution does not favor either side.

1. Call Barack Obama's campaign headquarters. Request that they ask the leadership of the Democratic National Party to invite the Carter Center for the purpose of mediating a solution to the FL and MI primary problem. Obama phone numbers follow:
