RE: CUHA: SB810

Dear Senator Leno,

The Democratic Club of the Santa Clarita Valley (SCV DEMS) would like to endorse and strongly supports The California Universal Healthcare Act (CUHA, SB810). We know that it will provide every resident of California with excellent, comprehensive health insurance. It will cover the more than six million Californians presently without health insurance, as well as all our citizens.

We were original supporters of SB 921 (Sheila Kuehl) and are well-informed about the need for and desirability of having a Medicare for all types of programs similar to those in every other developed country in the world. We of the Democratic Club of the Santa Clarita Valley understand that the total cost of the new system will be less than the cost of the agencies and insurance premiums that it replaces. California's economy, its people, and its businesses will save money, and receive affordable and better healthcare as a result of the CUHA, SB 810 actions.

In summary, we believe CUHA SB810 will improve California's business and economic climate, our health, and the sustainability and quality of our lives. We believe that all segments of our society will benefit. At your earliest convenience, please note us as proud supporters of SB 810.

Please also add us to your mailing list for any updates regarding the bill and any enhancements.

Respectfully yours,

Michael Cruz, President

The Democratic Club of the Santa Clarita Valley
