

Gene Dorio, M.D.

Geriatric and Internal Medicine

I go by Gene, in public and with friends.

I have practiced Geriatric and Internal Medicine in the Santa Clarita Valley for 23 years and am still one of the rare breed of physicians that does house calls.

As an advocate for senior rights, I have been involved with the SCV Senior Center in opposing the closure of the Transitional Care Unit, assisted in fighting for senior affordable housing, hosted "The Senior Hour" on KHTS Radio and "Housecall for Seniors" on public access TV.

Gene sits on the Board of

Directors of the Samuel Dixon Family Health Centers, as well as the Adult Day Health Care Center.

Like President Obama,

I attended Occidental College, come from a

biracial background.

Gene is left-handed.

With these attributes, it's hard not to have a flare for advocacy, and to separate me from a picket sign!

Thanks Minerva (lefty). Gene (lefty)

Pictured above with Robin Clough, SCV senior advocate.
