

ALLAN CAMERON

Candidate for the California State Democratic Party Convention From the 38th Assembly District

Voting for Allan Cameron as your Convention Delegate means you get someone who will both represent and lead ALL of us!

Our Progressive Democratic Party values are the values of America. The Convention is a powerful tool to be use to advance a vital agenda. Part of this agenda should be:

1. Start to destroy the myth that the 38th Assembly District is now, and will always be a Red Zone.
2. Advocate and pass a code of ethics designed to require that those of us who disagree must communicate directly with the folks we disagree with. To bring our District, our Party, our Country and our World together, we can only lead by example. The only time that a Democrat should speak ill of another Democrat is face-to-face.
3. We start by listing all that brings us together and building upon that. We have much to celebrate, and together, much to accomplish. Your vote is something I will cherish.
