

THE FUTURE OF HEALTH CARE IN CALIFORNIA

Featuring . . .

***Assemblyman
Hector De La Torre***

Tuesday, November 17, 2009 - 7:00 pm

State Building Auditorium

6150 Van Nuys Blvd., Van Nuys, CA 91401, corner of Calvert and

Van Nuys Blvd . . . Wheelchair Accessible

Hector De La Torre has spent his career standing up to powerful special interests to protect workers, consumers and taxpayers. He has taken on the tough fights - from corrupt politicians to heartless insurance companies - and won.

As a member of our State Assembly who also chairs the Assembly Committee on Accountability, Hector has not only been working tirelessly, but also successfully in a broad range of health care issues that are of concern to the people of California. He passed the law to stop insurers from canceling coverage when you get sick, passing legislation to provide funding for doctors to practice in underserved rural and low-income areas, protecting services for Medical patients and currently pushing to require insurance policies to cover maternity services. After passing in both Houses, the Governor threatened to veto all Bills.

Can we make health care veto proof? Which Bills passed and what will have to be reintroduced?

Is single payer health care going to happen in California?
