

**CONSTRUCTION TEAMSTERS APPRENTICESHIP PROGRAM OF SOUTHERN CALIFORNIA  
OPENINGS ARE CONTINUOUS**

NO EXPERIENCE NEEDED! THIS IS FREE, YOU WILL NOT HAVE TO PAY US AT ALL! USE YOUR MGIB TO SUPPLEMENT YOUR INCOME! WE WILL TEACH AND TRAIN YOU TO GET YOUR CLASS "A" LICENSE AND APPROPRIATE ENDORSEMENTS! EARN WHILE YOU LEARN THROUGH ON THE JOB TRAINING, GET PAID, PENSION, MEDICAL, DENTAL AND VISION INSURANCE FOR YOU AND YOUR FAMILY!

1ST STEP GO TO: [www.helmetstohardhats.org](http://www.helmetstohardhats.org) and register then:

2ND STEP GO TO: [www.ctapsc.org](http://www.ctapsc.org) register and mention Dan Lozano and Helmets to Hardhats

**Dump Truck and Articulation**

A. Learns driving techniques of dump trucks and articulating equipment in a construction field application. Learns proper applications of controls, valves, and gauges. Learns grade stake identifiers and vehicle right of ways. Learns proper inspection and maintenance practices and can perform minor repairs. Must possess excellent communication skills.

B. Learns hoisting techniques, hold in place and float procedures. Learns proper gear selections, over speeds, and downhill braking methods.

C. Will learn proper safety procedures for the safe handling and driving of equipment. Learn to understand signals and awareness of the operating environment.

**Fuel Truck Driver**

A. Learn preventative maintenance standards of off road machinery. Perform fuel applications for equipment. Learn to drive numerous types of equipment that is commonplace in the construction environment.

B. Learn proper techniques for liquid storage of products associated with the environment and perform inventory controls of parts and liquids. Establish excellent communication skills with field and office personal.

C. Will learn proper safety procedures for the safe handling and driving of all construction equipment. Will learn proper movement techniques when working around equipment and construction personal.

**Low Bed Driver 5 Axles or More**

A. Learns driving techniques in operating heavy equipment in the construction environment. Learn procedures in loading and off loading of heavy equipment. Learns all rules and regulations pertaining to highway transportation of oversized cargo.

B. Learns correct procedures in utilizing controls, levers, and gauges associated with heavy machinery and extended trailer applications.

C. Will learn proper safety procedures for the safe handling and driving of equipment. Will learn proper techniques in the movement of heavy equipment on public and off road environments.

**Oil Spreader Truck Driver**

A. Learns driving and applications of oil spreader equipment. Learns proper care and maintenance practices of equipment. Learns proper cleaning procedures and disposal of waste properties associated with this construction field.

B. Learns loading and off loading handling procedures of hot products. Learns proper functions of controls, valves, and gauges and learns troubleshooting methods of liquid discharge failures and tank ruptures.

C. Learns proper safety procedures when driving. Learns to operate safely when working around other people and equipment. Learns proper vehicle inspection practices.

#### Water Pull, Dust Control

A. Learns driving of various types of water pull equipment.

B. Learns to service and maintain various makes and models of pull equipment.

C. Learns various types of dust control techniques. Learn to properly read grade stakes, various soil identification and moisture control. Learn proper driving techniques behind earth moving equipment.

D. Will learn proper safety procedures for driving of equipment. Learn to understand proper hand signals and right of way rules in field environments.

#### Warehouseman/Forklift Operator

A. Learns operation of various types of forklifts. Will learn proper applications of controls, levers, and gauges. Will learn driver and machine limitations.

B. Learn proper methods of inventory control. Utilize warehouse techniques in floor and rack applications and shipping and receiving. Learn proper storage of palletized cargo, learn to service and maintain equipment.

C. Will learn proper safety procedures for safe handling and driving of equipment. Will learn proper driving around other people and equipment in a warehouse environment; learn proper securing of cargo in a lay-down yard and warehouse environment.

#### Construction Truck Driver
